- Leadership

BASIC LEVEL

An affordable package for those who are now starting to pursue a career in sustainability. No previous working experience is needed.

ADVANCED LEVEL

The leading program in the field of Sustainability. Welcomes registrations from social/ environmental/ CSR/ sustainability/ ESG specialists, all business functions, including procurement, operations, sales and marketing, business/ product development, R&D, finance, anyone working in the not-for-profit, academia and government sectors that are involved with or interested in gaining exposure to sustainability and ESG in a business context.

LEADERSHIP LEVEL

Designed for CEOs, corporate leaders and C-suite executives with more than 10 years of working experience in the field, from all the sectors of the global economy who want to address key Sustainability ESG challenges, understand evolving international laws and develop a sustainability vision and strategy, improve branding and ESG ratings, reduce stakeholder-related risks and deliver economic returns. Only decision-makers and/or C-level 1 & 2 executives are eligible to attend.

WHO WE ARE?

The **Center for Sustainability and Excellence (CSE)** offers advanced certified education on Sustainability ESG and Corporate Responsibility, Sustainable Development and Circular Economy for professionals who want to maximize their company's impact and become qualified with the latest knowledge in the field.

For more than sixteen years, CSE is a trusted training provider for Fortune 500 companies, local Governments and Universities, large multinationals and SMEs in North America, Europe and Asia.
